DETAILED ACTION

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Donald J. Harrington on 17 June 2005.

2. The application has been amended as follows:

The word "camp" in line 16 of claims 5, 6, 7, and 8 has been changed to --clamp--.

Allowable Subject Matter

- 3. Claims 5-8 are allowed.
- 4. The following is an examiner's statement of reasons for allowance: The prior art made of record fails to show a dual rod fishing holder comprising a C-clamp with a threaded support shaft secured to a main clamp portion, the support shaft having a first and second fishing pole holders secured thereto and a means for adjusting the angular position of both fishing pole holders about a first axis that intersects the support axis and about the axis of the support shaft, wherein the means for adjusting the angular position comprises a pedestal secured to the fishing pole holders and a clamping sleeve disposed about the pedestal, and having a clamping bolt extending through the sleeve.
- 5. It is further noted that the phrase "means for adjusting" satisfies an invocation of 35 U.S.C. 112 6th para., in at least claims 5 and 7 stating "means for adjusting the [first/second]

Application/Control Number: 10/824,105

Art Unit: 3644

fishing pole holder element about the axis of the support shaft." In said claims the "means for" language is modified by a function, i.e. "adjusting," and that functional language is not modified by sufficient, material, or acts for achieving the specified function. For these reasons invocation of 112 para. 6 is appropriate.

Page 3

- 6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
- 7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Susan C. Alimenti whose telephone number is 571-272-6897. The examiner can normally be reached on Monday-Friday, 9am-5pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Harvey Behrend can be reached on 571-272-6871. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

8. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
